HEIGHT AND CALIPER—Height given of fruit trees is approximate and represents average height of most varieties. Some slow growing kinds may fall short of height specified as it is intended that **THE CALIPER SHALL GOVERN.**

All Fruit Trees are tied, 11-16 and 9-16, 10; 7-16 and 5-16, 20 per bundle.-

APPLES

Our Apple are even better than usual this year—the best we have grown for many years. A happy combination of superior strains, good soil and perfect weather, insures straight trunks with well furnished heads and heavy root system.

Beacon, (Minnesota No. 423) vigorous and extremely hardy Minnesota seedling. Fruit deep red; flesh yellowish and quality good. Duchess season but a better keeper.

***Dolgo**, hardy firey red Crab, desirable for culinary uses; bears young and abundantly. Good for ornamental purposes.

Flame, a hardy Minnesota seedling producing a dense mass of white flowers shaded faint pink, followed by an immense load of small brilliantly colored fruit.

***Goldo**, a seedling of Grimes Golden combining the hardiness and season of Duchess with quality of Grimes Golden.

***Joan**, an Iowa cross of Anisim and Jonathan; a productive large red apple of beautiful color. Popular for home market.

***Jonathan Double Red**, a superior red, and an early coloring strain of Jonathan.

Kendall, a cross between McIntosh and Zusoff. Fruit a solid dark red; McIntosh season and a better keeper.

***Macoun**, dark red, less striped, white fleshed, highly flavored McIntosh type of apple. Ripens 30 days later than McIntosh. Regular and heavy bearer.

***McIntosh, Black Mickey**, superior dark red and early coloring strain from western New York. Highly recommended.

***McIntosh Early**, ripens six weeks before McIntosh; two weeks later than Transparent. Handsome red color and pleasing taste.

McIntosh Sweet, ripens late fall; color pale yellow covered with dark full red. Quality very good. Cross of Lawver and McIntosh.

***Melba**, a McIntosh seedling from Canada. Color bright crimson over pale yellow. Season ahead of Early McIntosh and variety is adapted for home market.

***Milton**, cross of Transparent and McIntosh ripening in Wealthy season. Tree hardy and vigorous. Fruit pinkish-red, flesh white with McIntosh flavor and aroma.

Minnesota No. 993, large mid-to-late winter apple, medium red color over a greenish yellow. Quality very good.

Minnesota No. 700, a fall and early winter apple of about Wealthy season but a slightly better keeper; size medium, comparable to Jonathan. Color, dark attractive red; flesh yellowish; flavor mild sub-acid; quality good. Very hardy.

Minnesota No. 1007, medium size, late winter apple shaped like Wealthy but late in maturing and not ready for use until about Christmas. Color bright red over a yellow ground. Excellent keeper and of great promise.

Minnesota No. 240, large high quality dessert Crab, keeping well into November. Color, light red blush or striped over yellow; flesh yellow.

Newfane, resembles a red colored sport of Delicious. Ripens with Delicious but keeps much longer.

Secor, an Iowa introduction of about Jonathan season, of superior quality but not as red as Jonathan. Better keeper and hangs to tree well. Variety adapted to Jonathan territory.

***Sharon**, new Iowa introduction of good quality and extreme hardiness. Excellent for home plantings. Color is striped red and green. Good keeper and disease resistant. A McIntosh cross.

* Varieties starred (*) can be furnished in budded trees.

APPLE—Whips, Buds and Grafts—Heavily Rooted

These Northern grown, yearling trees are graded by caliper and height, making a heavy grade, far superior to light spindling trees graded by height only.

Cumberland, a New Jersey seedling of Belle crossed with Greensboro. Large, white fleshed, usually free; ripening a few days before Carman.

Delicious, large, round, white-fleshed free-stone of exceptional color and high quality. Carman season. New Jersey introduction.

Eclipse, dark red, yellow fleshed free-stone; excellent flavor, ripening with Hiley. Recommended by introducers to replace Hiley.

Marquette, an extremely hardy Northern Michigan introduction. Fruit medium size, white flesh, free stone. Excellent quality and fine flavor.

Pioneer, large, oval white fleshed peach, almost free; ripening several days before Carman. A New Jersey introduction.

Polly, extremely hardy Iowa variety; fruit large, blushed, free-stone; ripening a few days ahead of Elberta. Flesh white and good flavor.

Shipper's Late Red, a late Elberta type Peach, fruit large, well colored; free-stone; flesh yellow and firm. Vigorous and productive.

Vedette, a Canadian seedling of Elberta; ripening three weeks earlier. More highly colored and better quality.

APPLE SEEDLINGS—Washington Grown

Note the strong grades. Thrifty, vigorous Seedlings are essential for profitable production.

See Next Page For Prices.

FRUIT TREE STOCKS

We specialize in growing and distributing fruit tree stocks, maintaining an extensive plant in the State of Washington.

We have been engaged in the seedling business for over 50 years and know how to grow and handle them. Our seedlings are kept well sprayed during the growing season; are healthy, thrifty and not dug until well ripened, and handled with a minimum amount of exposure. Our many satisfied customers are proof our seedlings will give satisfaction.

In order to insure our customers and ourselves a supply of seedlings of high quality, four years ago we established our own growing plant in the North-West, with modern storage facilities for handling, grading, and shipping, and which is under our direct control and management. A capable seedling grower of many years experience is in charge.

WESTERN GROWN—Our experience has demonstrated that due to favorable climatic conditions western seedlings are superior for planting. We are using all western grown fruit tree stocks for our own grafting and budding, securing splendid results.

FUTURE ORDERS—We are always glad to quote prices and book advance orders. This gives us an opportunity to secure the necessary amount of seed and plant to insure 100% delivery. We solicit your inquiries and orders.

GRADES—We make strong grades that please our customers.

PRICES—Are for shipment from Shenandoah, subject to our usual quantity discounts and to change without notice. We also are able to make shipments direct from our growing plant, if desired, and to offer our Eastern customers delivery in car lots to various points.

Aldenheimensis, Purpurea. 15 ft.
Foliage smooth reddish bronze. Buds crimson pink opening to brighter vinous-red, semi-double flowers. Fruit deep reddish-purple.

Arnoldiana, Arnold Crab. 20-30 ft.
Originated at Arnold Arboretum. Large rose-colored flowers, turning white.

Beauty, 25-30 ft.
Seedling of Pyrus Baccata. Pink flowers April, followed by an abundance of brilliant, cherry-red fruit.

Chinese Flowering Crab. Spectabilis. 15-18 ft.
Large fragrant, bright pink flowers. April.

Coronaria, Wild Sweet Crab. 25-30 ft.
White with pink flowers, delightfully fragrant. Native American species.

Eleyi. 25-30 ft.
Attractive reddish foliage in spring changing to pink. Single pink flowers followed by showy red fruit.

Floribunda
Pink buds, rosy-white flowers, small yellow fruit. Early.

Floribunda Purpurea, Purple Crab
Attractive red foliage in spring; single crimson flowers.

***Hopa, Red flowering crab. 20-25 ft.**
A beautiful, upright growing tree with attractive foliage. Entirely covered with rose colored flowers in April. Fruit red inside and out, hanging on until late autumn. Very hardy and free from disease. Planted extensively.

***Price 5c less on each grade.**

Mount Arbor Special
This desirable flowering crab produces an abundance of dark red flowers, purple fruit, with brilliant reddish-purple foliage, brighter in color than other varieties.

Red Silver
Fruit rich maroon red, foliage somewhat cut-leaved with silver and red color. A remarkable combination.

Redtip. 25-30 ft.
An interesting, hardy, ornamental tree. New growth having red leaves.

Redvein Crab, Niedzwetzkyana
A large growing Russian Turkestan variety. Has remarkable large red flowers in April followed by large purplish red fruit and leaves.

Sargenti, Sargent Crab. 4-6 ft.
Spreading Japanese variety. Pure white flowers with bright yellow anthers. Scarlet fruit hangs till spring.

Schedecki. 5-6 ft.
Double red in bud changing to pink.

Toringo
Large pink and white flowers; brilliant scarlet fruit.

BERBERIS MENTORENSIS

Plant Patent No. 99
(Sun or shade—ultimate height 5 ft.)

Barberry Mentorensis is the result of a cross between Barberry Thunbergi and Barberry Juliana. It is a plant with very rugged, strong, upright growing branches and heavy thorns. Its foliage is heavy and thick and of perfect color—a green as dark as the Japanese Yew.

2 year No. 1 from blooming wood.....	2.90	25.00

Multijuga, Long Cluster Wisteria. 40-50 ft.

Strong grower, deep blue flowers. May. Extra long clusters sometimes two to three feet. Valuable.

2 year Medium.....	1.70	14.00
2 year No. 1.....	2.10	18.00

Multijuga, White. 40-50 ft.

Long clusters of white flowers. May-June.

2 year Medium.....	1.40
2 year No. 1.....	1.80

EVERGREENS

Prices are for Evergreens Securely Balled and Burlapped.

Can dig Evergreens, roots puddled at the following reductions in price:

12 to 18 inches at 12c. 18 to 24 inches at 15c. 2 to 3 feet at 20c.

Our Evergreens have all been three times x x x transplanted, having been grown with plenty of room for development. Have been properly sheared and pruned for producing compact, symmetrical specimens.

Evergreens selected and tagged by customers in the nursery field will be subject to a 10% additional charge.

Height specified after variety indicates height tree should obtain at maturity.

We cannot assume responsibility for the successful transplanting of Evergreens, as weather conditions, method of handling and care govern results secured and are sold with the distinct understanding that if they arrive in good condition and are accepted, our responsibility ceases.

ARBOR VITAE, Thuja

Per 10Per 100

OCCIDENTALIS, American. 30-40 ft.

Hardy, pyramidal tree with broad base. Deep green to bright golden. Valuable for general planting, also for hedges and windbreaks.

18 to 24 inches.....	\$5.00	\$.....
2 to 3 feet.....	7.50

OCCIDENTALIS COMPACTA, Parson's Arbor Vitae. 3-4 ft.

Almost globe shaped. Similar to Globe Arbor Vitae, but brighter green.

2 to 2½ feet.....	11.00	100.00
2½ to 3 feet.....	15.00	125.00
3 to 3½ feet.....	20.00

OCCIDENTALIS GLOBOSA, Globe Arbor Vitae. 2½-3 ft.

Naturally globe shaped. Useful in formal work.

12 x 12 inches.....	6.50	60.00
15 x 15 inches.....	8.00

OCCIDENTALIS PYRAMIDALIS, American Pyramidal. 20-30 ft.

Solange , 9.7. Rose type, deep orange-salmon at the heart overlaid with a delicate tender, rich cream, very unusual coloring of rare beauty, strong, tall, erect grower, late.....	3.50	30.00

PERENNIALS

We have one of the largest and most complete assortments of Hardy Perennials, Alpine and Rock Garden plants of any nursery in the Middle West. Our plants are, except as specified, field grown, properly transplanted to give the necessary root development for high class landscape planting.

We have approximately 60 acres of overhead irrigation, devoted to the propagation of our Perennial and Rock Garden plants. We have searched the world over for new varieties of seeds and plants.

If you live near, we cordially invite you to come and inspect our perennial fields. There is hardly a day during the summer and early fall but what our fields are a mass of bloom.

All perennials should be shipped by express. They are very perishable and should not be included in a freight shipment.

RG indicates the adaptibility for rock garden planting.

The perennials that we are offering in this section are bare root, most suitable for landscape planting. If you are interested in packaged perennials, bulbs, etc., please write for our special price list No. 14 which covers a complete assortment of the more popular selling items suitable for store and counter trade.

SPECIALTY ITEMS OF THE NEW AND IMPROVED VARIETIES OF PERENNIALS

We are constantly in touch with plantsmen who specialize in the origination and improvement of new and better varieties of Hardy Plants, bringing these plants and seeds to our own nurseries for a thorough trial before offering them to our customers. We are extremely interested in offering you these newer varieties only in plants of real merit and dependability, plants that are adapted to extreme climatic conditions.

We have carefully checked our variety listing of perennials of some of the more recent introductions and wish to offer herewith a few suggested varieties that are worthy of your consideration.

	Per 10	Per 100
ANTHEMIS, NEW ART SHADES.		
This fine compact and upright growing variety is certainly a great improvement over its weedy ancestors. Plants 18 in. high, covered with white and yellow Daisy-like flowers. Good for cutting. June to August	\$1.20	\$10.00
AQUILEGIA, Columbine (RG).		
CRIMSON STAR. Something entirely new in Aquilegia! Large flowers of the most striking crimson, with white corolla. The plant has a sturdy full-flowering habit. Blooms in May-June. 24 in.-----	1.20	10.00
MONARCH HYBRIDS. The lack of vivid blue shades, so often a bad feature in Aquilegia mixtures, has been surmounted in Monarch by growing blues separately and blending them into the mixtures after harvesting. This new MONARCH strain produces flowers of very large size with broad petals of perfect form and great length of spurs. May-June. 24 in.-----	1.40	12.00
SILVER QUEEN. Silvery white flowers, very long spurs. May-June. 24 in.	1.40	12.00
ARTEMISIA, SILVER KING, COMPACTA (RG).		
New improved compact strain. This is a very new Artemisia of our own origination. It is very compactly grown and is so much different than the ordinary Silver King. 3 ft.-----	1.20	10.00
ASTERS, NEW DWARF (RG).		
Without exception, every one who sees these new Dwarf Asters, recently imported from England, in bloom in our nurseries, purchases some. They are neat of habit, the foliage is attractive, and in the blooming season in September and October, there are literally hundreds of blooms in the most delicate shades of lavender, pink, and lilac. They are truly dwarf, rarely exceeding one foot in height, perfectly hardy, and especially valuable for the rock garden, coming at a time when the rock garden is void of flowers. We have selected the best of this group of Dwarf Asters to offer to our customers.		
COUNTESS OF DUDLEY. Lovely blooms of luminous pink, with bright yellow eye. Unusually free flowering, bushy habit. Late September. 9 in.	1.20	10.00

PERENNIALS—continued

SPECIALTY ITEMS—continued

ASTERS—continued

Per 10 Per 100

LILAC TIME. Deep violet-blue flowers are produced on well rounded bushy plants growing to a height of 15 in. It is a most colorful and outstanding variety. September -----	\$1.40	\$12.00
NANCY. Lively flesh-pink flowers literally cover this dwarf bushy plant in late September. 1 ft.-----	1.20	10.00
SNOW SPRITE. (Snow Fairy). A very dwarf early September flowering variety, forming graceful plants a foot high. They are almost smothered with charming, semi-double white flowers-----	1.40	12.00

ASTERS, HARDY.

The following varieties of Upright Asters are new and improved varieties. Very large in bloom and extremely colorful. The old varieties that have been handled for years have practically passed out of the picture. For mass planting, the following varieties are tops:

BLUE GEM. Large lovely flowers of blue with a yellow center. Double flowers. Best blue in cultivation. September until frost. 3 to 4 ft.-----	.95	8.00
RED ROVER. The first red Fall Aster. Deep rosy red flowers with golden center; buds bright red. Free blooming, compact habit. September to frost. 3 to 4 ft.-----	.95	8.00
ROYAL BLUE. Flowers are large, an attractive shade of rich deep blue. Very effective from late August on. Splendid for cutting. 2½ ft.-----	.95	8.00

BUDDLEIA.

FORTUNE. (Plant Patent No. 206). In Buddleia Fortune we believe that the shortcomings in Buddleia have been overcome, for we believe it is close to perfection. The bush or shrub is of very neat habit, about four ft. high and four ft. across, with none of the wild and rough growing characteristics of the older varieties. Pure lilac in color with a brilliant orange eye in each tiny flower. Foliage, deep, leathery dark green. Sprays from 12 to 18 in. long. Flowers are produced in superabundance all summer and autumn until stopped by frost. The flower sprays are fully round, and bloom from base to tip at practically the same time. Grand for cutting, with stems two to three ft. long if desired, and keep well in water. Also a beautiful plant for the flower garden. (Retail, 85c each; \$8.50 per 12.)-----	3.50	25.00
---	------	-------

CHRYSANTHEMUMS, CUSHION, HARDY (RG).

A group of low-growing Chrysanthemums, forming mounds of blooms, reminding one of the old-fashioned Azalea. The plants grow about 10 or 12 in. high and spread 2 ft. or more. They flower quite early. All during September they are literally covered with hundreds of flowers which last over a long period. All are descendants of the Chrysanthemum Amelia, more often called Pink Cushion Chrysanthemum. We recommend handling these as pot plants.

BRONZE CUSHION. As the flowers first open they are warm rich red bronze, then turning to a bronzy yellow with a light red center giving a delightful effect. Later, lighten to a beautiful golden bronze shade----	1.40	12.00
KING CUSHION. Pure fiery red. Multitude of beautiful 2 to 2½ in. flowers. A startling contrast to anything that has so far been introduced-----	1.40	12.00
PINK CUSHION. Flowers open to a deep orchid pink then change to a light orchid with a creamy center finally salmon pink with a soft yellow center. Has a record of 3000 flowers the first year. Very hardy-----	.95	8.00
QUEEN CUSHION. Snow white flowers with a faint yellow center. This variety should be planted with the brighter colors to get the full effect of the flower and a contrast of colors-----	1.40	12.00

CHRYSANTHEMUMS, HARDY.

These Chrysanthemums are available for early spring delivery only and are offered in a 2 in. pot plant. Each plant will be shipped with the original ball, potted in Neponset green paper pots, properly packed so as to insure 100% delivery. These better types of Chrysanthemums are hard to handle as dormant plants and for that reason, we recommend the pot plants and you may rest assured you will have 100% stand on these plants and blooms the first year.

ALADDIN. Rich apricot bronze in color. As they get older, they turn to a gorgeous array of Apricot Red and Gold blossoms. Makes a marvelous display early in the summer until frost. 18 in.-----	1.20	10.00
RED FLARE. The first bright red garden variety. It is of the Pom Pom type, about 2 in. in diameter, a little larger than the varieties belonging to the intermediate section. Height 20 in.; strong upright growth. Matures about the middle of October-----	.95	8.00
VIVID. A very striking and effective variety, color a rosy crimson or amaranth shade, new to the earlier flowering Chrysanthemums. Blooms in September. 3 ft.-----	1.20	10.00

SPECIALTY ITEMS—continued

	Per 10	Per 100
DELPHINIUM.		
BELLADONNA IMPROVED, CLIVEDON BEAUTY. Our strain of Belladonna Improved is produced from stock seed of Clivedon Beauty, carefully selected to keep it absolutely pure and true to type. It is far superior to much of the so-called Belladonna Improved that is on the market today. Beautiful sky-blue. Blooms in June and again in September. 4 to 5 ft.-----	\$.95	\$ 8.00
BELLAMOSA, LaMARTINE. It is a deeper shade than Bellamosa and has a distinct white eye. In color it is more like the old Formosum but is a much better grower and has better foliage. Is not so susceptible to disease. Long blooming period. 4 to 5 ft.-----	1.40	12.00
ENGLISH HYBRIDS, BLACKMORE & LANGDON. This English strain is unsurpassed in the development of the Delphinium family. Enormous flowers in blue, mauve and pink. Solid, erect spikes, very tall and rigid. Grand for cut flower purposes. Long blooming season. 4 to 5 ft.-----	1.40	12.00
DIANTHUS (RG).		
ALWOODII'S ALPINUS. A perpetual flowering Hardy Pink in mixed colors for growing in borders in sunny locations. Beautifully marked. 6 in.-----	.95	8.00
HIGHLAND QUEEN. A gem for the rockery in June. Tall, strong stemmed pinks, brilliant crimson flowers. The very finest of new garden Pinks. 8 in.-----	.95	8.00
DICENTRA.		
EXIMIA (RG). This is not a particularly new item, but it is very worth while and few nurserymen know it. We recommend it very highly, equal to or better than the old fashioned Spectabilis variety. Rose colored flowers produced all summer. 12 in.-----	.95	8.00
GAILLARDIA SUN GOD.		
Wonderfully prolific and hardy, neat in habit, with upright growth. Fine gray-green foliage, topped with magnificent chamois-yellow flowers, 3 to 3½ in. in diameter. 24 in. (Retails \$1.50 per 3; \$4.50 per 12; \$30.00 per 100.)-----	1.80	15.00
GEUM.		
FIRE OPAL. An unusual Geum of dazzling rich scarlet with orange sheen flowers, often 3 in. across. May to October. 2 ft.-----	1.20	10.00
PRINCE OF ORANGE. Hardy bright orange with dark foliage, fairly double. Profuse bloomer. July and August. 18 to 24 in.-----	1.20	10.00
HEMEROCALLIS.		
HYPERION. A hardy, pale yellow shading toward citron Hemerocallis, which will grow in dry, wet, sunny or shady places. Fragrant buds which open well in water. Blooms throughout July and early August. 40 in. (Retails 75c each; \$2.70 per 3; \$7.50 per 12.)-----	4.00	35.00
LILIUM.		
ELEGANS TIP TOP. This is the original Red Russian Lily, and is best adapted of any of the Elegans for outdoor planting. Deep red. Stem rooting. 1½ to 2 ft. high. Erect blooms. June-July. 4 to 6 inches-----	.60	5.00
6 to 8 inches-----	1.20	10.00
MARTAGON. A very old Lily found in many old English gardens. It is a most valuable variety, growing equally well in partial shade as in sun. When established will bear as many as thirty purple, wax-like flowers. Base rooting. June. 4 to 5 ft. 4 to 6 inches-----	1.80	15.00
TENNUIFOLIUM GOLDEN GLEAM. A cross between L. tenuifolium and L. Martagon album resulting in a beautiful hybrid. A more robust form of L. tenuifolium with flowers of a delightful golden-apricot shade. Stem rooting. June. 18 to 24 in. Flowering size bulbs-----	1.20	10.00
PHLOX.		
AUGUSTA. (Plant Patent No. 252). The finest cherry-red Phlox ever introduced. Medium height, about 2½ ft. when fully grown, with rich, bronzy green foliage. Blooms for a period of two months. (Retail prices; 50c each; \$1.50 per 3; \$4.50 per 12.)-----	2.50	18.00
BORDER QUEEN. Very large florets of rich satiny rose-pink. One of the best new pinks. Very rare and beautiful. Plants are dwarf and excellent for garden. August-September-----	1.20	10.00
CAROLINE VANDENBURG. Fascinating shade of Lilac-blue. Enormous flowers. Blooms profusely. August and September. Medium height-----	1.40	12.00
COLUMBIA. (Plant Patent No. 118). The finest light pink Phlox ever introduced. The color suggests a delicate cameo-pink with faint blue shading at center. Exquisite effect. Sometimes called the "perpetual-flowering Phlox", because of a lateral or secondary flower spike from each leaf joint. (Retails \$1.10 per 3; \$3.30 per 12.) July to frost. 24 in.-----	1.40	12.00
DAILY SKETCH. Large trusses of lustrous pink with crimson-rose eye. Very large, single florets measure 1½ in. across. No other hardy Phlox produces florets so large. Color does not fade. Long blooming—starts in July and continues until frost. 3½ ft. high-----	1.40	12.00

PHLOX—continued		
E. J. FARRINGTON. Delicate pink with a deep rosy-red blush. We do not know of any Phlox that we can recommend more highly. Splendid variety of erect habit and vigorous growth. Always attractive and excellent for cutting. July to frost. 24 in.-----	\$.95	\$ 8.00
HAUPTMAN KOEHL. Glowing, full-toned red. Large florets curl and expose silver-rose back as bloom ages. Finest red Phlox propagated today. Large compact trusses on strong stems. The flowers retain color for a long period. July to frost. 24 in.-----	1.15	9.00
MISS ELLEN WILMOTT. Delicate orchid. Trusses rather loose but well filled. A very desirable variety. July to frost. 24 in.-----	1.80	15.00
MORGANROOD. Flashing rose-pink with slightly deeper eye. Large florets. Strong grower. 2½ to 3 ft. July to frost.-----	1.15	9.00
P. D. WILLIAMS. Brilliant pink with rose center. Extra large florets. One of the best pinks. Pyramidal trusses. Grows compactly, retains color unmarred and unbleached through the entire summer and fall. 2½ ft.---	1.80	15.00
WM. KESSELRING. Deep plum-purple shading to dainty lilac eye. July to frost. 24 in.-----	1.20	10.00
PHLOX, SUBULATA.		
BLUE HILLS (RG). An improved Subulata, finest known variety. Flowers are light blue, blooming in May and June.-----	1.20	10.00
PAPAVER ORIENTALIS.		
Out of 50 or 60 special varieties we have imported, we have selected the following preferred list. These plants are strong field grown, from root cuttings. 3 to 3½ ft. tall. Flower in May and June.		
GROSSFURST. Shiny red flowers, like Wurtembergia, but a little better shape	3.50	30.00
JEAN MAWSON. Beautiful salmon pink, noted for its hardiness.-----	1.80	15.00
NEGRILLION. Purplish red with a shade of brown. Must have some shade to develop the flowers rightly.-----	2.90	25.00
PHENOMENAL. The finest soft clear pink Poppy grown today. Inside rose colored. Flowers unusually large on strong stiff stems. Stock very scarce. Supply limited -----	15.00	-----
RED FLAME. A brilliant shade of Lacquer red. Flowers of medium size on very straight stems, best shaped plants of all.-----	1.80	15.00
WURTEMBERGIA. Glowing, flashing red. Very large. Undoubtedly one of the best Poppies we have.-----	1.20	10.00
VERBENA, HARDY (RG).		
Separate Colors, Pink and Red. This is a truly wonderful perennial. Blooms from early spring until frost. Excellent ground cover needing a little protection through the winter. We have these in separate colors, red and pink -----	1.20	10.00
VIOLET (RG).		
DOUBLE RUSSIAN. We are extremely pleased to be able to offer this highly scented Violet, which has been very difficult to obtain for many years. Double flowers, extremely fragrant. It is a slow grower, and does not spread much. Suitable for shady cool places, and especially adapted to cold frame work. Winter flowering. (Retails, \$1.10 per 3; \$3.30 per 12; \$20.00 per 100.)-----	1.40	12.00
PRINCE OF WALES. This is one of the newer English Violets. Very fragrant. Two blooming seasons, early in the spring and late in the fall. Flowers extra large. Color Royal Purple.-----	.95	8.00

*RUTH HATTON. Beautiful clear ivory-white. Very hardy. October. 18 in.	.95	8.00
*RUTH MARION HATTON. Canary-yellow. Early. 18 in.	1.20	10.00
*TINTS OF GOLD. Golden yellow with red near base of petals. Early. 18 in.	1.20	10.00
*VIVID. (See New and Special Items)	1.20	10.00
WINE GLOW. Wine colored. 18 in. October	1.20	10.00
WHITE DOTY. Pom Pom. Pure white. October. 18 in.	.95	8.00

CHRYSANTHEMUM, KOREAN HYBRIDS (RG).

Fine for cold climates where ordinary Chrysanthemum winter-kills. Noted for their lovely colors. Early blooming, easy to grow, and profuse bloomers. Can be cut with short stems to make a most charming table decoration, or very striking if branching sprays are used. Also, especially compelling for color effects in the garden.

*APOLLO. Sparkling combination of bronze, red, and gold suffused with glowing salmon. October. 2½ ft.	1.20	10.00
*DAPHNE. Lovely shade of Daphne-Pink, with underlying sheen of lilac-rose, enhanced with prominent golden stamens in center. Oct. 2 to 2½ ft.	.95	8.00
HEBE. Luminous pink, assuming soft, lavender-pink tones as flower matures. Fragrant. Late September through October. 2½ ft.	1.20	10.00

CHRYSANTHEMUM MAXIMUM, Shasta Daisy.

ALASKA. Large white flowers, June to August. 2 ft.	.70	6.00
DIENER'S DOUBLE WHITE. Recent development of full, shaggy, double flowers of glistening white. Hardy, robust grower. Early. 2½ to 3 ft.	1.20	10.00
LACINIATUM. White flowers, finely fringed, with wavy petals. Early. 2 ft.	.70	6.00
MONSTROSUM. Enormous white flowers. June to August. 2 ft.	.70	6.00
PRAECOX PERFECTION. Pure white flowers, well shaped, valuable for cutting. Early, in bloom for Memorial Day. 2 ft.	.80	7.00
PRAECOX WHITE LADY. Semi-double white flowers, very free flowering. May and June. 2 ft.	.70	6.00

SEMPERVIRENS. Literally covered with sheet of white in May and June. Dwarf, evergreen foliage. 8 in.-----	.95	8.00

IRIS

We have revised our 1938 Iris list, and have added several good varieties, which are worthy of your serious consideration. We have divided our Iris into three groups—the “Extra Good” varieties, “Medium Priced” varieties and “Standard” varieties. We guarantee our Iris to be true to name, and are available for shipment anytime after the first of August. In fact, Iris can be transplanted most any month of the year, providing the frost is out of the ground.

	Per 10	Per 100
EXTRA GOOD VARIETIES.		
This list contains some of the World’s finest Iris. Practically all of them are recent introductions and are much improved over the old type. If you have never handled any of these “Extra Good” varieties, it would be our suggestion that you try a few of them. Your customers will enjoy getting acquainted with them.		
ACACIA ROSE, medium height. Large rose petaled flowers-----	\$1.80	\$15.00
ALICE HORSEFALL, a big dark velvety red-purple intermediate and one of the finest of this class. An orange beard gives a fine contrast; 30 in. Blooms well into tall bearded class-----	2.10	17.50
AMBASSADUER, deep rich blend. Winner of American Iris Society Popularity Contest. 42 in. -----	.60	5.00
ASIA, a beautiful silvery lavender blend, lit by a bright yellow beard. An Iris of elegance and deserved popularity. Late, 36 in.-----	1.20	10.00
AUTUMN KING, this is the first of a new race of Iris, that bloom both in the spring and fall. The flowers are large, a lovely blue purple-----	.95	8.00
BEAU IDEAL, one of the distinctive Sass plicatas, notable for the wide solid border of Chinese Violet on a white background. Very unusual and fine, 34 in. -----	.60	5.00
BLUE GLORY, S. light blue; F. darker blue-----	.60	5.00
BUTO, rich velvety deep royal purple. Gigantic flower of perfect form, 30 in.-----	1.20	10.00
CHASSEUR, 36 in., one of the largest and finest yellow Iris with bright Prussian red veinings at the throat-----	1.40	12.00
CLARA NOYES, a gorgeous blend of orange yellow, and red of Talisman rose coloring -----	2.10	17.50
DOLLY MADISON, a glorified Quaker Lady type. Large flowers of blended soft mauve and soft yellow. Finest of its type, 36 in.-----	.60	5.00
EUPHONY, standing petals, mustard yellow tipped Chamoise, ruffled. Drooping petals spreading of same color well marked with a large central zone of blue, 36 in.-----	1.40	12.00
FLAMINGO, a magnificent new rich red-toned variety, 38 in.-----	1.40	12.00
INDIAN CHIEF, this is one of the finest red Iris. S. beautiful violet-red; F. deep rich glowing velvety red. The general effect being a fine rich red. Greatly admired by everyone. 40 in. -----	1.40	12.00
IMPERATOR, a fine extra large toned Iris that makes a striking garden effect. Given an Award of Merit at Wisley, England, 30 in.-----	.60	5.00
KING JUBA, a clear colored large flowered variegata, the brilliant contrast between the yellow standards and wide solid deep velvety red falls, makes this a striking and much admired Iris. Very large flowers on 36 to 40 in. stem-----	1.80	15.00
KING KARL, beautifully ruffled light pinkish cinnamon standards. F. cream sanded in an all-over pattern of liseran purple with a yellow beard. The bloom takes on beautiful rosy tones as it ages. 27 in.-----	1.80	15.00
KING MIDAS, S. golden buff suffused garnet brown; F. velvety iridescent garnet brown edged golden buff. The heavy beard is of deepest orange. The center of the flower and the hafts are illuminated with intense golden lights. 30 in. -----	2.40	20.00
KING TUT, notable for its beautiful brilliant brown and red tones that fairly blaze in bright sun. F. Hessian brown, S and stigmas Cacao brown. Half and beard golden yellow, the general effect in the garden of brilliant red -----	1.40	12.00
LORD OF JUNE, a very fragrant gigantic blue bicolor, flowers measuring 7 inches, 40 in.-----	.45	4.00

--	-----	------

PERENNIALS—continued

PAPAVER ORIENTALIS

The following Oriental Poppies, with the exception of the Seedlings, are grown from root cutting plants. Some of these varieties are new and improved varieties, and are being introduced by us for the first time in this section of the country. Oriental Poppies, for best results, should be planted the latter part of August, for they are completely dormant at that time. However, some have planted Poppies in the spring with varied success. We have these Poppies available and would be glad to send them to you at your risk. Otherwise, we would recommend that you place your order with us at this time for delivery when dormant in August. 3 to 3½ ft. May and June.

	Per 10	Per 100
BEAUTY OF LIVERMORE. Deep blood red, extra large-----	\$1.20	\$10.00
CERISE BEAUTY. Medium size flowers and height. Crinkly cerise-----	1.20	10.00

Terms and Conditions of Sale

TERMS AND DISCOUNTS

TERMS: 2% discount for payment in 10 days from date of invoice. Accounts due first of second month following date of invoice. These terms are offered to those with established credit; otherwise cash, security, or satisfactory references. C. O. D. orders must be accompanied by one-fourth cash.

QUANTITY DISCOUNTS from prices in this list (to be deducted if account is paid when due).

\$100.00 to \$300.00.....	2%	\$700.00 to \$1000.00.....	5%
300.00 to 500.00.....	3%	1000.00 and up.....	6%
500.00 to 700.00.....	4%		

Invoices past due, or previously settled, cannot be included in figuring discounts.

PRICES named in this list are based upon present market conditions and are **subject to change without notice.** These are **Wholesale Prices** and apply upon the following quantities:

FRUIT TREES, SHADE TREES, SHRUBS, ROSES, VINES, PERENNIALS (INCLUDING PEONIES AND LILIES):

- 300 or more at 1000 rate (where published)
- 30 to 300 at 100 rate
- Under 30 at 10 rate

All grades and varieties in any one class allowed to make total. For example: All Fruit trees are considered one class, all shrubs one class, etc.

SMALL FRUITS, HEDGING, PRIVET, AND ALL SEEDLINGS:

- 300 of same variety and grade at 1000 rates
- Under 300 of same variety and grade at 100 rates

EVERGREENS, B & B:

- 30 trees (any assortment) at 100 rate
- 5 trees (any assortment) at 10 rate

FALL AND SPRING BULBS

- 300 or more bulbs (not less than 50 of any one variety) at 1000 rate
- Under 300 bulbs at 100 rates

Note:—Classifications as given above are understood to be as listed under general headings in price list. (Broken lots of less than 10 of any one variety and grade will be billed at 15% above 10 rate).

ALL PRICES ARE NET, BOXING AND BALING EXTRA: NO CHARGE FOR PACKING BULK CARS.

SHIPPING—Please give shipping instructions whether by freight or express and route. If no instructions are given we will forward to the best of our judgment, without assuming responsibility. **All goods travel at the purchaser's risk and expense.**

TRUCK SERVICE—We are able to offer truck service within a radius of 300 to 500 miles from Shenandoah. Charges average about the same as railroad rates with delivery at your door. If interested write for further information.

CAUTION—We accept all orders subject to crop conditions and on condition that same shall be void should injury befall our stock from hail, fire, frost, error in count or other causes beyond our control.

GUARANTEE OF GENUINENESS—If any nursery stock, proves untrue to description or variety name under which it is sold, we hold ourselves in readiness, on proper proof, to replace such nursery stock that may prove untrue to description or name, or refund the original amount paid. **We shall in no case be liable for any sum greater than the amount originally received for said nursery stock.**

CLAIMS for any cause must be made promptly on receipt of stock. **We will not entertain claims after goods have been once accepted,** or when report is not made within **Ten Days** after arrival of stock. **We express or imply no warranty as to productiveness or life of the nursery stock we sell and will not be in any way responsible for the results secured in transplanting.**

SPECIAL NOTICE—Correspondents are requested to use their printed business letterheads. We do not quote prices to retail buyers. We use every effort to limit the distribution of trade prices to those whom we know to be entitled to receive them.
